The following is an examiner's statement of reasons for allowance: the closest prior art of record, i.e., references listed on the attached PTO-1449, especially the references cited that are based on an international preliminary examination report of the PCT document corresponding to the instant application, fail to teach or fairly suggest the acetal of formula IV claimed herein, and a method of making phytofluene wherein said acetal is an intermediate in a series of steps for making phytofluene. Accordingly, the instant claims are allowed.
